

CONMUN 2023 Technology Policy, Working Outside of Committee Policy, and Crisis Slack Links

CONMUN 2023 will be enforcing a **No Working Outside of Committee Policy**. Any delegate found to have pre-written speeches, clauses, Crisis notes, Working Papers, Draft Resolutions, Directives, etc. will be removed from award contention. Furthermore, no work on resolutions and directives outside of allotted committee time will be permitted. Research materials and bullet point ideas/notes are allowed. If you have any questions or wish to verify whether your notes follow this policy, please ask your Dais, or a member of the Secretariat.

In **General Assemblies, ECOSOCS, and Specialized Assemblies**, the use of technology during committee sessions (other than unmoderated caucus) is strictly prohibited. If a delegate is found to be using technology outside of an unmoderated caucus, they will be removed from award contention.

Crisis Committees at CONMUN 2023 will use Slack to send crisis notes. Crisis delegates are highly encouraged to bring their laptops or other electronic devices to every committee session. Electronic devices in committee may **ONLY** be used to send crisis notes via Slack. If a delegate is found to be using Slack or their devices for any purposes other than writing crisis notes, they will be removed from award contention.

Please use the table below to join the Slack channel for your committee. Please do not join any other channels. Once you have joined the channel, please rename yourself as the country or character you will be representing.
